“The school has a lot of people from different backgrounds and professions which is very helpful if you want to widen your network.”

I have been working in a corporate company in the Philippines as a Business Development Manager and I wanted to learn and be a better leader and achieve more. So, doing something as going back to school and having the right education and studying in the right school is imperative for me. Queensford College has been a great place for me, since they gave me an opportunity not just to work in the college after I finish my course, but I have also learned a lot from our instructors. They have all the resources I needed for me to learn a lot. It is a school that is full of motivated and career-driven people.

Angelique from Philippines
Leadership and Management Student

“Studying at Queensford College has helped me achieve my professional goals.”

My studies have helped me climb positions at my workplace, where I completed my vocational placement - from commis chef to chef de partie. Every week in class I learn new skills, and I am able to put them into practice. The chefs there can see I can do a lot more now and they have more confidence in me, giving me further duties and responsibilities. I really enjoy the creativity we have in class and have found ways to implement this at work too. Our assessments in class require us to create and plate dishes to solve problems of creating menus in a professional environment.

Andres from Colombia
Commercial Cookery and Hospitality Management Student

“I was impressed with what the college offers, dynamic trainers, excellent facilities, and mostly it is a multicultural environment.”

I enjoy clinical skills lab days where we get to learn how to use different clinical instruments, get a feel of the real hospital setting, and also learn from our classmates about different cultural backgrounds. The training staff are amazing and have professional knowledge in nursing. They know “nursing” inside out, back to front, and they have made learning fun. My career plan is to return to my home country and start-up an aged care facility.

Esther from Papua New Guinea
Nursing Student

“I experienced first-hand the college’s amazing support services for their International Students.”

I come from a big family, where literally everywhere I turn I see a child. So ever since I can remember I’ve always wanted a career that involved teaching children. Studying early childhood education and care provided me the opportunity to learn about a child’s early years and how to connect with them in a professional manner. I hope one day to start my own childcare center back home in Africa.

Olatoye from Africa
